

48th Annual Meeting of the EBMT

LOOKING DEEP INTO COMPLEXITIES OF MULTIPLE MYELOMA (MM): HOW TO DECIDE THE TREATMENT AND MEASURE THE OUTCOMES?

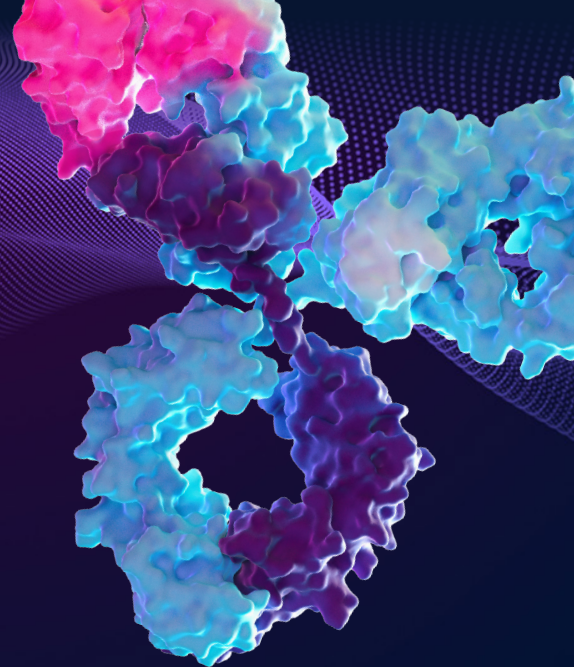

Chaired by Professor Roman Hájek

Sunday, 20 March, 2022

10:30-12:00 CET

Attend in person—South Hall 1A+B

Join remotely—Virtual Hall 4 on the EBMT platform

Programme

Introduction

Roman Hájek, MD, PhD

Current MM
Treatment Landscape

Hartmut Goldschmidt, MD, PhD

Role of Transplantation
in MM Treatment

Sergio A. Giralt, MD, FACP

Emerging Therapeutic
Landscape with Novel Targets

Elena Zamagni, MD, PhD

Q&A and Closing Remarks

All Speakers

Please join us in person on **Sunday, 20 March, 2022 at 10:30 CET, South Hall 1A+B** or remotely in **Virtual Hall 4**, as we evaluate how treatment decisions are being made in the current landscape, the role of transplantation in MM, and ongoing research investigating novel targets in the relapsed/refractory setting.
